Osseodensification

Optimize Your Implant Practice. Create More with Less Any Implant, Any Ridge, In Either Jaw

The course will be taught and directed by Dr. Salah Huwais, the founder of Osseodensification, and Versah world-renowned faculty. Participants will practice on actual bone specimens and specially developed clinical simulation models.

Learning Objectives:

This whole-day training will minimize the learning curve and help understand the science behind Osseodensification.

- Sub-Crestal Sinus Lift
- Lateral Ridge Expansion
- Immediate Implant Placement with OD
- Guided Expansion Graft (2-Stage Approach)
- Universal Guided Surgery Protocol
 - *How can we preserve bone, plastically expand it, and enhance its strength in a controlled method?*
 - *The effect of Osseodensification on implant total stability development for early and immediate loading.*
 - *Risk assessment and avoiding complications.*

WORKSHOP COORDINATORS

Dr. Costa Nicolopoulos
