Marianna Kontopodi graduated from Dental School of the Aristotle University of Thessalon-iki in 2005. September of the same year she moved to England where she worked as a general dentist in private practice in Brighton and London. In 2006 she continued her studies at New York University, College of Dentistry and completed her Masters in Aesthetic Dentistry in July, 2008.

September of the same year she moved to London, where in addition to her work as an aesthetic dentist she worked as a guest lecturer with Eastman Dental Institute, (UCL) in the field of cosmetic dentistry. Since 2010, Marianna Kontopodi lives and works in Athens and Crete and participating as a lecturer at seminars in Aesthetic dentistry in Greece and abroad.

UCL Eastman CPD Certificate of Attendance

Upon satisfactory completion of this programme, participants will be awarded with a UCL Eastman CPD Attendance Certificate, attesting to attendance at a maximum of 33 verifiable CPD credit hours.

NOTE: Please note that this is a CPD certificate and not a UCL university degree.

The Institute also offers an extensive range of hands-on, CPD courses in dedicated facilities. These courses are led by practicing specialists, many of whom are also engaged with the full degree programmes. This ensures both a high-standard of teaching and a clinically-focussed approach.

The central London location is convenient both for London-based dentists and those travelling from around the UK or Europe. Moreover international students are able to attend CPD courses for the same fee as UK/EU students.

UCL Eastman works in partnership with the Eastman Dental Hospital (EDH), part of UCLH NHS Foundation Trust (UCLHT), they enjoy long-standing, successful collaborations with international universities, the NHS, industry sponsors, small, medium and large multinational companies.

Members of staff are leading decision makers in Specialist Dental Societies, the Regional Postgraduate Centres of Health Education England (HEE) and Committees of the Royal Colleges of Surgeons, holding national examining and accreditation roles.

UCL Eastman Dental Institute is a world-leading, academic centre for postgraduate dentistry and translational research, based in London, UK. They offer an extensive range of high-quality, postgraduate study opportunities including Master's degrees, specialty training, certificates, diplomas and research-informed degrees.

CPD courses are held in teaching facilities which comprise of four fully equipped seminar rooms; three skills laboratories with a total of 50 individual work stations, each with its own phantom head equipment and computer screen linked to a teaching station; five well equipped surgeries (with microscopes) for clinical sessions and an open space where peer groups can meet to discuss the day's teaching over tea and coffee.

The Institute was ranked 12th in the world for Dentistry in the 2019 QS World Rankings

You can participate in the programs of this renowned university in collaboration with MERIMNA Institute.

Aims and Objectives

This course aims to provide:

- Knowledge and skills of clinical procedures in adhesive and aesthetic dentistry
- Knowledge and understanding of contemporary aesthetic biomaterials
- Improvement of the standards of delivered aesthetic clinical dental procedures
- Broadening of the options for treatment planning of complex aesthetic problems

Topics reviewed

- Aesthetic smile evaluation, aesthetic concepts and pre-treatment case documentation, treatment planning
- Occlusal records for the aesthetic case (casts, face-bows, interocclusal registration, semi-adjustable articulators)
- Dental photography
- Anterior and posterior composite restorations/adhesive dentistry
- Ceramic Restorations: veneers and crowns
- Aesthetic metal-ceramic crowns and bridges
- Tissue management, impressions for indirect restorations
- Aesthetic Periodontics: Anterior crown lengthening, extraction site preservation, recession coverage, augmentation
- Aesthetic cements and cementation techniques for ceramic restorations
- Interdisciplinary treatment planning for complex aesthetic problems

Teaching and Learning

- Lectures
- Step by step patient case presentations
- Interactive patient treatment planning exercises
- Ample hands-on training (in skills laboratory and clinic)
- Video demonstrations of clinical procedures
- Current literature compilation
- Evidence-based dentistry
- Interdisciplinary case approach
- Interactive review sessions with the turning point system
- Small instructors/student ratio

Day Format

Morning session:

9.30 a.m-1.30 p.m. lectures, seminars

Afternoon session:

2.30p.m-5.00p.m.
hands on practical training or clinic
