

THE NEW HORIZONS IN DENTISTRY FOR THE PRESENT & THE FUTURE

The Successful Use of Clear Aligners for Total Treatment

Dr. Martin B. Epstein
EDUCATOR

JULY 1st-2nd, 2023

ATHENS, GREECE

Registrations: www.merimnaseminars.gr

Recommended for the Advanced General Practitioner

Dr. Martin B. EPSTEIN

Former Clinical Associate Professor, Department of Orthodontics, Post-Graduate Division of New York University College of Dentistry; Diplomate, American Board of Orthodontics; Teacher of the Year Award (Post-Graduate Orthodontics) at New York University College of Dentistry; Presented courses and seminars extensively in Europe, Asia and South America; Written numerous articles in American and International Orthodontic publications: Manuscript Review Committee for the American Journal of Orthodontics and Dentofacial Orthopedics; American Dental Association Certificate of Recognition (Volunteer service in a foreign country); Private Practice of Orthodontics for 30 years. Treated over 6000 cases with clear removable aligners.

Topics to be covered:

- Impression techniques and digital full mouth scanning
- Proper attachment design for ideal tooth movement
- Case selection criteria for beginners and advanced treatment options
- Strategy for mild, moderate and severe crowding
- Extraction cases: how to select them and get superior results
- Interproximal enamel reduction: when and how to use it
- Class II treatment with effective distalization that really works
- Class III treatment for camouflage and correction
- Treatment of the vertical dimension: open bite treatment and deep bite treatment
- Correction of spacing, diastemas and the dreaded “black triangles”
- Pontic fabrication for missing teeth and virtual extractions
- Ideal clinical check: how to submit an ideal treatment plan for superior results
- Interdisciplinary cases for implant placement
- Adolescent and teenage case selection
- Combo treatment using additional fixed appliances for ideal results
- Crossbites and expansion methods that work with clear aligners
- Advantages and disadvantages of printing your own in-office aligners
- How to build your practice with proper marketing techniques
